TOPIC 1

Hi, my name is K and I am a student. Today I would like to talk about a hotel I have stayed in. This is the Paloma which is located in Hai Phong. This is a hotel near the center of the city and near many tourist attractions . I and my family took a flight to this hotel. I chose a family room because I wanted to stay with my family. There are many facilities in this room such as air conditioner, a king size bed, television and minibar, which I have to rate 500.000 vnd. I was so surprised when I opened the minibar. It had a few bottles of beer along with carbonated drinks. In this hotel, I was able to use services such as room service, bell service and wake up service. I have used most of the free services here such as bell service and wake up service. because it was a short trip, I didn't request the housekeeping services. I was quite satisfied with my stay. I liked the location of the hotel the most. But the room service was a bit expensive. If my friends want to find a hotel for your family, I will recommend this hotel for them. That's about a hotel I have stayed in. Thanks for listening!

TOPIC 2

Hi, my name is Khanh and I am a student. Today, I will talk about good and bad driving habits. I can drive a motorbike when I was 18 years old. I am a good driver but sometimes I am not going to be a good driver. Talking about some examples of good driving habits, you shouldn't multitask when

you are driving. For example, don't talk on the phone, listen to music text when driving. And if you have driving habits such as don't stop at red lights, don't signal when turning, weave through traffic, you are a bad driver. I think the most dangerous driving behavior is that you weave through traffic because it can easily lead to the traffic accident . I have both good and bad driving habits such as talking on the phone, not stopping at the red lights and maintaining a safe following distance . I have seen an accident when I crossed the street last year. A motorbike driver weaved through traffic and caused a biker a fall. Luckily, No one was hurt. After I saw the accident, I want to say to all drivers that you need to pay attention and drive carefully. That's all about a topic. Thanks for listening!

TOPIC 3

Hi, my name is Khanh and I am a student. Today, I will talk about how I care for my appearance . I am very happy with my appearance. Appearance is important to me. For me, outer beauty is the most important. I take care of my skin by nourishing it twice a day. I take care of my hair by washing it often. I take care of my teeth by brushing twice a day. The skin care products that I use are hand and body lotion. The hair care products that I use are shampoo . The teeth care products that I use are toothpaste. I usually go to salon. The salon located on Nguyen Trai Street. I go there with my friends. When I go to that salon, I use the service facial , shave, massage and haircut. I have to pay 200000 dong. I think cosmetic surgery is so beautiful. The pros of cosmetic surgery are beautiful. The cons of cosmetic surgery are pain. If you have money, the procedure I want to have hair and teeth because I want to be beautiful. That's all about my topic. Thanks for listening!

TOPIC 4

Hi! I'm from Ha Noi city of Vietnam. Vietnam is a busy country and has many traditions. I live in the centre of the city. Everyone in the area has nice eating and drinking habits. In the morning, everyone in my town gets up at about 6 o'clock but it's not too early and everyone gets up on time. I have breakfast at home like noodles, rice

with vegetables or bread but sometimes I have to go outside to eat breakfast out because there's no time for cooking. I always eat vegetables and meat for their lunch and of course have to cook the food. After eating, they have to work until the evening and have dinner at 6 or 7, in the evening, their meal always includes fried meat or fish, lettuce or cucumber. I often go to eat in Fpoly canteen with my friend because I talk about everything with my friend. I always drink orange water because it's good for health.
